

Photoshop Elements Group

In this group we use Adobe Photoshop Elements to edit and manipulate images. Some areas include

- Cropping
- Repairing damaged photos
- Adding people to or removing them from photos
- Converting to black and white (or greyscale)
- Colourizing
- Replacing skies or backgrounds
- Sharpening fuzzy photos
- Making photo mosaics
- Panoramas
- Adding text to photos

and more.

Our group caters for all levels from complete beginners upward. We provide digital copies of comprehensive illustrated notes as well as sample images to practise and access to YouTube videos.
